| Portfolio: *Coming Soon*

Objective

Personable and enthusiastic web developer with a strong foundation in accessibility and a full-stack certificate from the University of North Texas in Austin. My skill set spans a diverse range of technologies, including Node.js, Axios, Express, React.js, SQL, JavaScript, CSS, HTML, and MongoDB, empowering me to create meaningful server-side applications. My ability to collaborate seamlessly within teams, coupled with my knack for problem-solving in high-pressure situations, distinguishes me as a developer. I take pride in my effective communication skills, enjoying the connections forged with colleagues, and I am deeply passionate about building applications that simplify and enrich people's lives. My goal is to channel my meticulous attention to detail and adept troubleshooting abilities into a progressive company, where I can contribute substantially and evolve as a valuable asset.

Technical/Soft Skills

Technical Languages: HTML5, CSS3, JavaScript ES6+, JQuery, Node.js, MySQL (Sequelize), NoSQL(MongoBD)
Technical Proficiencies: MacOS, Windows, Bootstrap, jQuery, React, Node.js, Express.js, MongoDB, Agile Development, Git, and GitHub
Soft Skills: Active-listening, Adaptability, Problem solving, Critical thinking, Time and Project management, Creativity, Teamwork, and Organization

Projects

Web Development Projects
